Subject: Coming Soon: 2021 JCDREAM Seed Grants

Dear Michael,

JCDREAM's next round of seed grant funding will open on **March 1st, 2021**. Stay tuned for the official announcement and application details.

JCDREAM was established to facilitate and fund research in earth-abundant material alternatives and solutions to critical materials issues in key areas of Washington state's economy, specifically clean energy and transportation. If this sounds like a fit, we encourage you to start thinking about ideas for a proposal as well as opportunities for collaboration beyond your own organization.

If you would like to discuss how your research may fit with JCDREAM's objectives under this funding opportunity, feel free to respond to this email. We will begin scheduling meetings with the director of JCDREAM once the RFP is released March 1st. We look forward to another excellent field of applicants!
